RDW: To destroy the works of the devil is one major way in which our testimony of word and deed. can glorify the true nature of our living God, our heavenly father. *It is to rectify our God's damaged reputation*. It is to avoid extending the implicit and embarrassing policy of almost constantly misrepresenting Him in our mission work around the world.

To "destroy his works" means thus to take it as part of our efforts, our mission, to glorify God to restore, with God's help, what Satan has distorted.

The principal concern in all of this is the distortion we can see in many people's ideas of God. **All this massive damage to the purposes of the Kingdom of God amounts to noise so loud that people can't hear what we are preaching to them**.—"RDW Explanation"
